

Week 2 Check List

No cheating, don't tick them off until you have completed the task 😊

- Setup a Wordpress blog from scratch.
- Activate and setup Akismet on your Wordpress blog.
- Brief overview of the Wordpress dashboard.
- Install the 'Add to Any' Wordpress plugin.
- Install the 'Easy Re-Tweet' Wordpress plugin.
- Brief overview of Wordpress themes.
- Add a new Wordpress theme.
- Change the appearance of your Wordpress blog with graphics.
- If possible get some [custom graphics](#) created.
- Familiarize yourself with your Wordpress admin area.
- Make sure your blog tag line is unique.
- Send me your domain URL, so I can add it to my central database for you.**
