

## Week 6 Check List

**No cheating, don't tick them off until you have completed the task 😊**

- Choose your title and domain name.
- Add your new domain to your existing web hosting package.
- Edit your PLR product using Open Office, and add your own spin on it, add your own personality, experiences, ideas and add/remove additional content, based on your research.
- Make sure you use a readable font and a good size.
- Make sure you check all hyperlinks and add your own if you prefer.
- Check through your product page by page, take your time, spend at least 2-3 days on this, if not more.
- Get [custom graphics](#) made for your product.
- Add one of your custom graphic 3D images to your title page if you prefer.
- Save your product as your new name and then export it as a PDF using Open Office.
- Complete your new product, take your time, if you need to spend 2 weeks on this then that's fine.
- Continue to make posts on other students blogs that may be constructive, helpful or informative.
- Leave feedback or a testimonial on what you think about the course so far.
